DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

For claims 1 and 16 the prior art of record does disclose a static electricity eliminating method as disclosed by Aida, but there is no disclosure or suggestion of the first and second electrically conductive piece that are disposed so as to face each other through an insulating layer where a discharge means having one end and other end electrically both first and second electrically conductive pieces, and the first and second electrically conductive pieces being not grounded.

The art of record does not disclose or suggest the above claimed features, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
